SRI PERFECT ELECTRO PLATERS

Plating Specialist

Pistons

Hard chrome plating of Pistons and Hydraulics. We have provision of Belt polishing which will help for very even polishing and achieve higher RA value.

Electroless Nickel

Electroless nickel Plating on Spares, Fastners, Moulds and Dies, Critical spares which has blind holes.

Advantage of Electroless nickel is, it will be covered in all hidden and small areas of the component which is not feasible in other plating.

Excellent corrosion protection and finishing is the positive aspect of ENP.

Electroless nickel plating can be done upto 10 feet.

Moulds and Dies

Hard chrome and Electroless nickel for Mould and Dies with mirror finishing for durability of your Moulds.

Diamond polishing to achieve greater shining and glossy finish.

Check our variety of Dies plated and customer delight.
